

JAMS AND JELLIES

Kids (under 10)

Q

What do you hear when a jar of jelly is safely sealed after canning?

JAMS AND JELLIES

Kids (under 10)

ANSWER

A pop sound when the lid seals.

FUN FACT

That pop means air is out and your jelly is sealed tight!

JAMS AND JELLIES

Kids (under 10)

Q

Which one is a jelly made from?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Fruit juice that makes it clear and firm.

FUN FACT

Jelly is clear because it's made from juice, not fruit bits!

JAMS AND JELLIES

Kids (under 10)

Q

Which one is a jam made from?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Crushed or mashed fruit that holds its shape but is soft.

FUN FACT

Jam has little fruit pieces in it, so it's soft and tasty!

JAMS AND JELLIES

Kids (under 10)

Q

What does sugar do in jam and jelly?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Helps the jelly or jam get thick and sweet.

FUN FACT

Sugar helps jams and jellies gel and keeps them safe to eat!

Kids (under 10)

Q

When you make a freezer jam, what do you NOT do that you do with cooked jam?

JAMS AND JELLIES

Kids (under 10)

ANSWER

You never cook the fruit mixture.

FUN FACT

Freezer jam tastes fresh because it's never cooked!

JAMS AND JELLIES

Kids (under 10)

Q

Why do you leave some space at the top of a jam jar before sealing?

JAMS AND JELLIES

Kids (under 10)

ANSWER

So the jam can expand and not spill out.

FUN FACT

Leaving space helps keep your jam safe and yummy!

JAMS AND JELLIES

Kids (under 10)

Q

What smell do you expect when making a jam?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Sweet and fruity like berries or peaches.

FUN FACT

Cooking jam smells yummy and fruity-like the fruit you used!

JAMS AND JELLIES

Kids (under 10)

Q

Why do some jam recipes add a little lemon juice?

JAMS AND JELLIES

Kids (under 10)

ANSWER

To help the jelly set and add a tangy flavor.

FUN FACT

Lemon juice helps jam jiggle and tastes a little sour and sweet!

JAMS AND JELLIES

Kids (under 10)

Q

How can you tell when cooked jelly is ready to be put in jars?

JAMS AND JELLIES

Kids (under 10)

ANSWER

**When it sheets off a spoon
without dripping fast.**

FUN FACT

*The jelly 'sheet test' is a neat way to
check if it's ready!*

JAMS AND JELLIES

Kids (under 10)

Q

If you use less sugar than a recipe says in jam, what might happen?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Your jam might be runny and not set well.

FUN FACT

Sugar helps jams get thick, so don't skip too much of it!

JAMS AND JELLIES

Kids (under 10)

Q

What might you see on the jam if you don't seal the jar well?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Mold or fuzz on top of the jam.

FUN FACT

Sealing jars right keeps mold away so jam stays yummy!

JAMS AND JELLIES

Kids (under 10)

Q

What happens if too much lemon juice is added to jam?

JAMS AND JELLIES

Kids (under 10)

ANSWER

The jelly might weep, or get watery on the outside.

FUN FACT

Just the right lemon juice makes jam good, too much makes it drip!
