Q

What do pickling salt and table salt have in common?

PICKLING

Kids (under 10)

ANSWER

Both are salty but pickling salt has no minerals that cloud pickles

FUN FACT

Pickling salt keeps your pickles clear and tasty without cloudiness!

PICKLING

Kids (under 10)

Q

Why do some pickles have a fizz or bubbles when they're fermenting?

PICKLING

Kids (under 10)

ANSWER

Because good bacteria are making tiny bubbles

FUN FACT

Bubbles mean the pickle bacteria are hard at work!
