Kids (under 10)

Q

Why do grown-ups wrap food tightly before putting it in the freezer?

ANSWER

To keep air out so food stays fresh

FUN FACT

Air makes ice crystals grow and can make food taste funny.

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

If you see little ice crystals on frozen berries, what might that tell you about the berries?

Kids (under 10)

ANSWER

They could be a bit dry and not as juicy.

FUN FACT

Ice crystals can change how frozen food feels and taste, making it less yummy!

Kids (under 10)

Q

When you touch frozen vegetables, what should they feel like?

Kids (under 10)

ANSWER

Hard and cold like a snowball

FUN FACT

Frozen food feels very cold and hard because water inside is frozen solid.

Kids (under 10)

Q

Which of these foods does NOT freeze well and can get mushy?

Kids (under 10)

ANSWER

Lettuce and cucumbers

FUN FACT

Some foods, like lettuce, get watery and mushy when frozen and thawed.

Source: SP 50-766 Foods that do not freeze well

Q

Why do grown-ups sometimes dip frozen fish in water to make an ice coat?

ANSWER

To protect the fish from freezer burn

FUN FACT

A thin ice layer helps keep frozen fish fresh longer.

Kids (under 10)

Q

What color change might you see on frozen food if it has freezer burn?

Kids (under 10)

ANSWER

Color looks dull or pale

FUN FACT

Freezer burn changes food color and taste but the food is still safe to eat.

Kids (under 10)

Q

What is an easy way for grown-ups to know if frozen food is older or newer?

Kids (under 10)

ANSWER

They put a date sticker or write the date on the package

FUN FACT

Labeling frozen food helps people know how long it's been stored.

Kids (under 10)

Q

What happens to fruits and vegetables before freezing to keep them bright and tasty?

Kids (under 10)

ANSWER

They get dipped in hot water for a short time (blanched)

FUN FACT

Blanching stops tiny changes before freezing so food stays yummy.

Kids (under 10)

Q

If a root cellar is cool and dark, what kind of produce can kids expect to find stored there?

Kids (under 10)

ANSWER

Potatoes, carrots, and beets

FUN FACT

Root cellars keep some vegetables fresh without a freezer or fridge.

Source: OSU winter crop storage guide

Kids (under 10)

Q

When you open the freezer door, what should you expect to feel?

Kids (under 10)

ANSWER

Cold air blowing out

FUN FACT

The freezer keeps air very cold to keep food frozen and fresh.

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

What does a freezer bag or special freezer paper do for frozen food?

Kids (under 10)

ANSWER

Keeps air and moisture out to protect the food

FUN FACT

Good packaging helps frozen food stay safe and tasty longer.

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

What might you smell if frozen food has gone bad or old inside the freezer?

Kids (under 10)

ANSWER

A sour or strange smell

FUN FACT

Bad smells mean food might be old or freezer burned.

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

Which food should be kept in the refrigerator and NOT just on a shelf?

Kids (under 10)

ANSWER

Milk and fresh eggs

FUN FACT

Cold storage keeps milk and eggs fresh and safe to eat.

Source: SP 50-677 Guidelines for the refrigeration of foods

Kids (under 10)

Q

What do you see on a pickle if it's gone sour and grown fuzzy or moldy?

Kids (under 10)

ANSWER

Green or white fuzzy patches

FUN FACT

Mold on food can look like fuzzy clouds-always tell an adult if you see it!

Source: OSU Extension MFP

Kids (under 10)

Q

What should grown-ups do before freezing most fruit and veggie pieces?

Kids (under 10)

ANSWER

Blanch them in hot water briefly

FUN FACT

Blanching helps keep frozen fruits and vegetables tasty and colorful.

Source: PNW 214 Freezing fruits and vegetables

Kids (under 10)

Q

What kind of container is NOT good for freezing foods?

Kids (under 10)

ANSWER

**A glass jar filled to the top
without space**

FUN FACT

*Food needs room to expand when it
freezes, or containers can break.*

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

What does it mean if frozen food feels sticky or wet when you touch it?

Kids (under 10)

ANSWER

It has started to thaw and refreeze

FUN FACT

Opening the freezer a lot can cause food to get icy and sticky with frost.

Source: PNW 586 Home freezing seafood

Kids (under 10)

Q

Which vegetable would you NOT find in a cold root cellar because it needs warmer storage?

Kids (under 10)

ANSWER

Tomatoes

FUN FACT

Tomatoes don't keep well in cold spots; they like warmer places.

Source: OSU winter crop storage guide

Q

What is important about how much water grown-ups leave in containers when freezing food?

Kids (under 10)

ANSWER

They leave some space so water can grow when it freezes

FUN FACT

Water expands when it freezes, so jars need a little space or they might break.
