

JAMS AND JELLIES

Kids (under 10)

Q

What does a grown-up do to be sure a jar of jam is sealed tight after canning?

JAMS AND JELLIES

Kids (under 10)

ANSWER

The jar lid stays down and doesn't pop up when pressed

FUN FACT

A sealed jar lid helps keep the jam safe and fresh!

Kids (under 10)

Q

If you see mold (fuzzy stuff) growing on a jar of jam, what should you tell a grown-up?

JAMS AND JELLIES

Kids (under 10)

ANSWER

**The jam should not be eaten
and should be thrown away**

FUN FACT

*Mold means the jam has gone bad,
even if some looks clean.*

JAMS AND JELLIES

Kids (under 10)

Q

When you look at a freezer jam, how might it taste compared to cooked jam?

JAMS AND JELLIES

Kids (under 10)

ANSWER

It tastes fresh and like the fruit itself

FUN FACT

Freezer jam keeps the fresh fruit flavor because it isn't cooked!

JAMS AND JELLIES

Kids (under 10)

Q

Which feels sticky and thick when you touch it: jam or jelly?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Jam, because it has pieces of fruit mashed in it

FUN FACT

Jam has tiny fruit pieces that make it sticky and sweet!

JAMS AND JELLIES

Kids (under 10)

Q

How do grown-ups know when jam is ready to take off the stove?

JAMS AND JELLIES

Kids (under 10)

ANSWER

They test if it's thick by cooling a little on a cold plate

FUN FACT

Testing jam on a cold plate helps check if it's perfectly thick!

JAMS AND JELLIES

Kids (under 10)

Q

When someone makes jam, you notice they squeeze some lemon juice into the fruit. Why do you think they do that?

JAMS AND JELLIES

Kids (under 10)

ANSWER

To help the jam become thick and yummy to eat

FUN FACT

Lemon juice helps jam turn thick and jelly-like, so it wiggles when you shake it!

JAMS AND JELLIES

Kids (under 10)

Q

What kind of lids do jars need to keep jam safe after sealing?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Lids that fit tight and hold air out

FUN FACT

Tight lids stop air from spoiling the jam inside the jar!

JAMS AND JELLIES

Kids (under 10)

Q

Why should you never put freezer jam at room temperature for a long time?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Because it can grow mold or go bad quickly

FUN FACT

Freezer jam needs cold to stay safe and yummy longer!

Source: SP 50-632 Making berry syrups at home

JAMS AND JELLIES

Kids (under 10)

Q

What kind of sugar do grown-ups use to make jam and jelly safely?

JAMS AND JELLIES

Kids (under 10)

ANSWER

Granulated sugar, the regular kind

FUN FACT

Granulated sugar helps make jam sweet and keeps it from spoiling!

Source: SP 50-632 Making berry syrups at home

JAMS AND JELLIES

Kids (under 10)

Q

When a grown-up puts jam in a jar, they don't fill it all the way to the top. What do you think is the reason for that?

JAMS AND JELLIES

Kids (under 10)

ANSWER

To leave a little space so the jam doesn't spill out.

FUN FACT

Leaving a little space at the top of the jar helps keep the jam safe and stops it from spilling out!
