

**Wash the beans and cut off
the ends.**

STEP

1

Pressure Canning Green Beans

Cut the beans into 1-inch pieces or leave them whole.

STEP

2

Pressure Canning Green Beans

Boil water and pour it over the beans to make them hot (hot pack method).

! SAFETY STEP

STEP

3

Pressure Canning Green Beans

**Pack the hot beans loosely
into hot jars.**

! SAFETY STEP

STEP

4

Pressure Canning Green Beans

**Add salt if you want-1
teaspoon per quart or 1/2
teaspoon per pint.**

STEP

5

Pressure Canning Green Beans

Pour boiling water over beans in jars, leaving 1 inch of empty space at the top.

! SAFETY STEP

STEP

6

Pressure Canning Green Beans

Remove air bubbles by running a safe tool down the inside edge of the jar.

! SAFETY STEP

STEP

7

Pressure Canning Green Beans

**Wipe jar rims clean so they
seal well.**

! SAFETY STEP

STEP

8

Pressure Canning Green Beans

**Put on the lids and screw
on the bands
fingertip-tight.**

! SAFETY STEP

STEP

9

Pressure Canning Green Beans

**Put jars in the pressure
canner and vent steam for
10 minutes.**

! SAFETY STEP

STEP

10

Pressure Canning Green Beans

Close the canner and bring pressure up to 10 pounds (weighted gauge) or 11 pounds (dial gauge).

! SAFETY STEP

STEP

11

Pressure Canning Green Beans

Process pint jars for 20 minutes and quart jars for 25 minutes under pressure.

! SAFETY STEP

STEP

12

Pressure Canning Green Beans

After processing, turn off heat and let pressure drop to zero before opening the canner.

! SAFETY STEP

STEP

13

Pressure Canning Green Beans

Let jars cool for 5 minutes in the canner lid off, then take them out to cool completely.
