

**Sterilize canning jars.
Crush 2 quarts of
strawberries as preparation
for jam.**

STEP

1

Making Strawberry Jam

Combine crushed strawberries with 6 cups sugar; stir occasionally to dissolve sugar before cooking.

STEP

2

Making Strawberry Jam

Bring mixture slowly to boiling over medium heat, stirring occasionally to dissolve sugar.

STEP

3

Making Strawberry Jam

**Cook rapidly until thick,
about 40 minutes, stirring
frequently to prevent
sticking or burning.**

STEP

4

Making Strawberry Jam

Use temperature test: Jam is ready when it reaches 220 deg F (104 deg C) at sea level or gels when cooled on a plate.

STEP

5

Making Strawberry Jam

**Skim off foam carefully
from the surface before
filling jars.**

STEP

6

Making Strawberry Jam

Ladle hot jam into hot sterilized jars, leaving 1/4 inch headspace; remove air bubbles; clean jar rims.

! SAFETY STEP

STEP

7

Making Strawberry Jam

Wipe jar rims thoroughly to remove any jam residue to ensure proper sealing.

! SAFETY STEP

STEP

8

Making Strawberry Jam

Apply sterilized lids and screw bands on jars fingertip tight to allow air to escape during processing.

MAKING STRAWBERRY JAM

TEEN/ADULT

Place jars on rack in boiling water canner; add water to cover jars by at least 1 inch.

! SAFETY STEP

STEP

10

Making Strawberry Jam

Process half-pint or pint jars 5 minutes at 0-1000 ft altitude; increase processing time with altitude adjustments.

! SAFETY STEP

STEP

11

Making Strawberry Jam

At end of processing, turn off heat, remove canner lid, wait 5 minutes before removing jars to prevent liquid loss or seal failure.

! SAFETY STEP

STEP

12

Making Strawberry Jam

**Place jars on towel or rack,
do not disturb for 12-24
hours to allow proper
sealing.**

! SAFETY STEP

STEP

13

Making Strawberry Jam

**Test seals after cooling:
lids should be concave and
not move when pressed.**

! SAFETY STEP

STEP

14

Making Strawberry Jam

**Remove rings, clean jars,
label with contents and
date, and store in cool, dry,
dark location for best
quality.**
